

track record

Here are some samples of projects Fast Track has done.

Imagine Cup

Microsoft Corporation
www.imaginecup.com

Imagine Cup is Microsoft's annual worldwide student technology competition. Since 2004, Microsoft has partnered with Fast Track to run it. For the 2010 season, Fast Track is responsible for managing the competition platform and all aspects of the online competition.

/Student

Microsoft Corporation
www.microsoft.com/student

/Student centralizes all the different resources aimed at reaching students. Here students can find information on Microsoft products, software discounts, ways to become involved, student competitions, etc. It also connects them to other students via the Student Lounge, a site that Fast Track also develops and maintains.

DreamSpark

Microsoft Corporation
www.dreamspark.com

DreamSpark is a Microsoft program set up to provide students with software design and development tools at no charge. Fast Track took over the development from another group and successfully prepared the site for the integration of 80+ countries. Fast Track continues to develop and host the DreamSpark website.
